

Special Education Parent Advisory Group (SEPAG) Interest Survey

The SEPAG was created to act as a link between the parent(s) and the school, including resources, support, and suggestions. We would like the parents to be able to choose the topics for each meeting based on the needs of the group. Below is a list of possible suggested topics for future meetings. Please check the boxes of the topics that you would like more information about. There is also a space for your own suggestions, which are always welcome, so please add any of your own topic ideas. We will do our best to provide resources and support services to you throughout the school year.

- Parents rights in Special Education
- Student learning styles
- Transition planning
- Planning for your child's special life needs (financially)
- Student Based Youth Services programs (which are offered at both the high school and junior high school)
- Community resources night
- Student communication skills
- Individuals with Disabilities Education Act (IDEA) – A Parent Guide
- Quality of Life Grant – future planning for your child
- Other _____
- Other _____
- Other _____

Thank-you for taking the time to complete this survey and to be actively involved in your child's education. Please return this form to either Jill Flanagan, jflanagan@prsdnj.org or Patty Piserchia, ppiserchia@prsdnj.org. With the help of the SEPAG, we are looking forward to building a positive relationship throughout the year between the school personnel and the parents.

Sincerely,
The SEPAG Staff
