Dear Students and Parents:

Moving on to college, planning for or a career after high school, or entering a supported work environment is a major transition for students. For students with disabilities finding the resources to help make that transition smooth is even more important.

We are inviting you to join us on February 10, 2009 at 6pm for a Transition and Career Fair. This is an opportunity for special education students and families to learn about resources, agencies and employers in our community. Community agencies will showcase their programs and will explain how they may assist and guide students and parents through the transition process from high school.

Agencies represented will range from colleges and post secondary training programs to supported employers and workshops. If you have any questions please contact either Patricia Piserchia x 2292 or Marla Heinemann x 2230.
